

Robben Island

I see the sunrise
I see the sunset
And all I wanna know is what is next
Another another day it's a brand new morning
Another another day everybody goodmorning
Me ah take a boat down to robben island
Me ah see what it take to be a real man
Me ah see the struggle and the isolation
Me ah see the spirit of a perseverance
Them ah doing time no probation
Them ah pay the price for a great nation
Them ah say apartheid be a long gone
But me ah see the poverty get it undone
Me ah see the cell that Mandela was in
Me ah see the miracle that begins within
Me ah see the revolution inside his mind
Take shape at the right point of time
Me ah say

They live the day and they lived through the night
They paid the sins for you and i
They live the day and they lived through the night
They paid the sins for you and i

Them ah live that way and them ah obey the silence
They never troubled never cause no violence
They live the day and they lived through the night
They paid the sins for you and i

Me see the state of affairs, yeah
We live as if we don't care
Where are the lessons we learned
Where are the soldiers who burnt

Robert subokwe, who him ah be
Me a tell it one time, me a tellthe story
He be a man, with the ANC
He then break away cause he wanna be free
He wanted to see the dum pass being passed
He wanted to see equality at last
He gave his time and he gave his soul
He tried to set an example
But do we really care anymore
Well here I am I wanna tell you more

They live the day and they lived through the night
They paid the sins for you and i
They live the day and they lived through the night
They paid the sins for you and i

Them ah live that way and them ah obey the silence
They never troubled never cause no violence
They live the day and they lived through the night
They paid the sins for you and i
Do I really care me say why oh why
Do I really care me ah say
Do I really care me say why oh why
Do I really care me ah say time to try

Me see the state of affairs, yeah
We live as if we don't care
Where are the lessons we learned
Where are the soldiers who burnt

Billy nair, him a there
Him ah do the time for twenty years
Mr. jama – not obama
Him ah telling me all about the drama
Him ah prisoner, him ah living now
Here he is can you see him mr foreigner
Him ah prisoner, him ah living now

Do you care dou care do you care do you care

They live the day and they lived through the night
